ABOUT ME

QA Engineer with 3.5+ years of hands-on experience in mobile, web, and API testing. Known for identifying high-impact bugs early in the cycle and reducing bug leakage by up to 40%. Skilled in Agile environments, test case design, and collaborating with developers to ensure faster and more stable releases.

WORK EXPERIENCE

QA Engineer , Ardem Incorporated (Remote)

Jan 2025 – Present

- Performed end-to-end testing of a GIS drawing platform, validating drawing behavior and coordinate accuracy and Data flow accuracy.
- Wrote 100+ test cases, performed Postman-based API testing, and logged 30+ UI/functional bugs using JIRA.
- Helped improve test coverage by 35%.
- Led a team of 3 People while working with the client Eventellect.

QA Engineer, Bijnis (New Delhi- Hybrid)

Mar 2022 - Oct 2024

- Led QA for multiple B2B e-commerce and sourcing platforms across Android, iOS, and web.
- Designed and executed 300+ manual test cases for key features including product discovery, ordering, and CRM workflows.
- Conducted load testing using JMeter; improved response times by 20% during high-volume order processing.
- Owned QA for the Smart Wholesalers module, validating UI, business logic, and MongoDB-backed data flows — enabling 500+ regional managers to manage buyer relationships efficiently.
- Identified and reported 100+ bugs; collaborated with dev teams to reduce post-release defects by 35%.

Associate QA Specialist , Logicbuds (Remote)

June 2021 – Mar 2022

- Executed manual and API testing for a health e-pharma platform.
- Validated 50+ critical flows including medicine search, order, and tracking.
- Helped improve test coverage by 35%.
- Logged 40+ bugs and helped reduce post-release issues by 30%.
- Verified frontend and backend data consistency through database validations and API response checks.
- Ensured cross-browser compatibility using Chrome, Firefox, and Safari during regression cycles.
- Conducted responsive testing and reported layout/UI issues for mobile and desktop versions.

SELECTED PROJECTS

Smart Wholesalers Module - Bijnis

- Led UI and functional testing of this CRM-like system used by field managers
- Validated MongoDB data integrity and helped reduce support queries by 30%.
- Created and maintained detailed test cases and checklists for 10+ key user journeys.

Sourcing App (Android & IOS) - Bijnis

- Tested the migration of native Android flows to React Native, ensuring feature parity across platforms
- Reduced crash rate by 40% and improved release velocity.
- Improved API response time by 25% through detailed performance testing and reporting.
- Performed end-to-end testing of the iOS version to ensure stability, UI consistency, and critical flow coverage.

Dia Hotels (Web, Android & IOS) - Hospitality Application - Freelance Project

- Tested real-time booking updates on the admin dashboard via socket implementation to ensure live data accuracy.
- Validated APIs with Postman and verified SQL data integrity
- Performed end-to-end testing of Razorpay integration, including various payment and refund scenarios.
- Logged 20+ critical bugs during regression.

Veera Games (Web3 Gaming Platform) - Freelance Project

- Tested Web3 gaming platform for login, wallet integration, and smart contract behavior.
- Performed API and UI testing to ensure glitch-free gameplay.
- Reported key UI/UX bugs that improved player retention.
- Verified blockchain transaction accuracy and ensured seamless wallet-to-game asset sync across sessions.
- Simulated real-world game scenarios to uncover critical gameplay-breaking bugs before release, leading to a smoother launch.

SKILLS

- **Technical Skills:** SDLC & STLC, System Architecture, Design Verification, Test Case Design, Test Planning
- **Testing Types:** Smoke Testing, Sanity Testing, Regression Testing, System Integration Testing, UAT, API Testing, Load Testing, Mobile Testing, Web Testing
- **API Tools:** Postman, ApiDog, One Relic
- **Load Testing Tools:** JMeter, LoadRunner
- **Mobile Testing Tools:** SQL, MongoDB, Mongo Compass
- **Databases:** TestFlight, Android Studio
- **Project & Bug Management Tools:** Jira, Trello

EDUCATION

Bachelors Of Technology

Giet University, Gunupur, Odisha

Jul 2017 - Jun 2021
